

FIZA ASLAM

Aspiring Data Scientist | ML Engineer | Azure Cloud

ia5221554@gmail.com | +92 316 7430130 | Bahawalnagar, Pakistan | github.com/FizaAslam1 | linkedin.com/in/fiza-aslam

ABOUT ME

BS IT student (6th Semester) at The Islamia University of Bahawalpur, specializing in Data Science and Machine Learning. Experienced in building end-to-end ML pipelines, NLP models, and Streamlit-deployed AI applications. Passionate about solving real-world problems through data-driven solutions.

EXPERIENCE

AI Engineer Intern — CodeCelix | Jan 2026 – Apr 2026 | Remote

- Built and deployed ML models for real-world AI projects under senior engineers
- Worked on data pipelines, feature engineering, model evaluation, and preprocessing

PROJECTS

EV Safety System — AI Predictive Maintenance | Python, Scikit-learn, Random Forest, Pandas, Streamlit

- Predicted EV charger failures 7 days in advance with 99% accuracy (AUC-ROC: 0.9999)
- Achieved zero missed failures (997/997 true positives) with only 20 false alarms
- Deployed interactive risk-scoring dashboard via Streamlit with color-coded maintenance alerts

Customer Churn Prediction | Python, Scikit-learn, Random Forest, Logistic Regression, Streamlit

- Built telecom churn prediction app with 78% accuracy using demographic, billing & service data
- Applied SMOTE for class imbalance; deployed Streamlit app with confidence scores & feature importance

PriceOptimizer AI — Dynamic Pricing Engine | Python, XGBoost, Scikit-learn, Streamlit, Plotly

- Built demand prediction model ($R^2 = 0.88$, MAE = 5.9 units) trained on 3,000+ samples
- Optimized pricing across 80+ price points; included What-If simulator for competitor price changes

Sentiment Analysis | Python, Hugging Face, Scikit-learn, NLP

- Developed NLP model to classify sentiment from text using Hugging Face pipelines
- Compared transformer-based and traditional ML approaches for accuracy benchmarking

SKILLS

ML/AI: Machine Learning, Deep Learning, NLP, Predictive Modeling, Model Deployment

Cloud: Microsoft Azure (Azure ML, Azure App Service, Azure Blob Storage, Azure Functions)

Libraries: Scikit-learn, TensorFlow/Keras, XGBoost, Pandas, NumPy, Matplotlib, Seaborn, Hugging Face, Plotly

Tools: Streamlit, Jupyter Notebook, VS Code, GitHub, Google Colab, Kaggle, Azure Portal

Languages: Python, SQL

EDUCATION

BS Information Technology — The Islamia University of Bahawalpur | 2023 – Present

FSc Pre-Engineering — Abaidullah College Haveli Lakha | 2021 – 2023

CERTIFICATIONS & LANGUAGES

Certifications: Python for Data Science | Data Analytics | Microsoft Azure Fundamentals AZ-900 (In Progress)

Languages: English • Urdu • Punjabi
